Condensed Consolidated Interim Financial Statements of

SILVER SPRUCE RESOURCES INC.

For the three and nine months ended July 31, 2014 and 2013

(Unaudited)

Notice of No Auditor Review of Interim Financial Statements

Under National Instrument 51-102, Part 4, subsection 4.3 (3) (a), if an auditor has not performed a review of the interim consolidated financial statements, they must be accompanied by a notice indicating that the consolidated financial statements have not been reviewed by the Company's auditor.

The accompanying unaudited interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these condensed consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim consolidated financial statements by an entity's auditor.

npanying notes to the condensed consolidated interim financial st

1. DESCRIPTION OF BUSINESS

Silver Spruce Resources Inc. (the "Company") is a public company domiciled in Canada and was incorporated in Alberta on May 8, 1996 under the name First Labrador Acquisitions Inc. The Company changed its name to Silver Spruce Resources Inc. on October 22, 2004. The Company's operations consist of the exploration for precious and base minerals. The registered office of the Company is Suite 312, 197 Dufferin Street, Bridgewater, Nova Scotia, B4V 2G9.

2. BASIS OF PREPARATION AND GOING CONCERN

Statement of compliance

The condensed consolidated interim financial statements (the "financial statements") of the Company are unaudited and have been prepared in accordance with IAS 34, *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). In preparing the interim financial statements, the same accounting principles and methods of computation have been applied as in the annual financial statements for the year ended October 31, 2013. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods have been made.

These condensed consolidated interim statements should be read in conjunction with the Company's consolidated annual financial statements for the year ended October 31, 2013.

Basis of presentation

The condense consolidated interim financial statements of the Company have been prepared in accordance with IAS 34 on a going concern basis, under the historical cost convention except for investments which are reflected at fair value which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. Several adverse conditions, however, cast substantial doubt on the validity of this assumption. The Company does not have any proven economically recoverable reserves on the Company's interest in mineral properties held for exploration and to date; the Company has earned no direct mining related revenues. The Company's assets are subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions, and political uncertainty.

The recoverability of the amounts shown for mineral properties and related deferred costs is dependent upon the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production. It is not possible to predict whether financing efforts will be successful. The amounts shown as mineral properties represent net costs to date and do not necessarily represent present or future values.

Although the Company has taken steps to verify title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers, First Nations claims, non-compliance with regulatory and environmental requirements and may be affected by undetected defects.

2. BASIS OF PREPARATION AND GOING CONCERN (continued)

Basis of presentation (continued)

While the financial statements have been prepared on the basis of accounting principles applicable to a going concern, adverse conditions such as ongoing operational losses and a need for working capital cast doubt on the validity of this assumption. These financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements. Such adjustments could be material. The Company had continuing losses during the year ended October 31, 2013, a working capital deficiency and a cumulative deficit as at October 31, 2013. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Certain comparative information has been reclassified to conform with the presentation adopted in the current year.

3. FUTURE ACCOUNTING CHANGES

IFRS 9 *Classification and Measurement* ("IFRS 9") introduces new requirements for the classification, measurement and de-recognition of financial assets and financial liabilities. Specifically, IFRS 9 requires all recognized financial assets that are within the scope of IAS 39 *Financial Instruments*: *Recognition and Measurement* to be subsequently measured at amortized cost or fair value. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted. This amendment was released in connection with IFRS 7 *Financial Instruments: Disclosures - Transition Disclosures* ("IFRS 7") which outlines that, with the amendments to IFRS 9, entities applying IFRS 9 do not need to restate prior periods but are required to apply modified disclosures. The Company is currently assessing the impact of this new standard on the Company's financial assets and financial liabilities.

IFRS 10 *Consolidated Financial Statements* ("IFRS 10") replaces the consolidation guidance in IAS 27 *Consolidated and Separate Financial Statements* ("IAS 27") and SIC-12 *Consolidation — Special Purpose Entities* by introducing a single consolidation model for all entities based on control, irrespective of the nature of the investee (i.e., whether an entity is controlled through voting rights of investors or through other contractual arrangements as is common in special purpose entities). Under IFRS 10, control is based on whether an investor has power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the returns. The Company intends to adopt this standard in its financial statements for the annual period beginning November 1, 2013. The Company is currently assessing the impact of this new standard on the Company's financial assets and financial liabilities.

IFRS 11 *Joint Arrangements* ("IFRS 11") introduces new accounting requirements for joint arrangements, replacing IAS 31 *Interests in Joint Ventures*. IFRS 11 removes the option to apply the proportional consolidation method when accounting for jointly controlled entities and eliminates the concept of jointly controlled assets. IFRS 11 now only differentiates between joint operations and joint ventures. A joint operation is a joint arrangement whereby the parties that have joint control have rights to the assets and obligations for the liabilities. A joint venture is a joint arrangement whereby the parties that have joint control have rights to the net assets. The Company intends to adopt this standard in its financial statements for the annual period beginning

3. FUTURE ACCOUNTING CHANGES (continued)

November 1, 2013. The Company is currently assessing the impact of this new standard on the Company's financial assets and financial liabilities.

IFRS 12 *Disclosure of Interests in Other Entities* ("IFRS 12") requires enhanced disclosures about both consolidated entities and unconsolidated entities in which an entity has involvement. The objective of IFRS 12 is to provide financial statement users with information to evaluate the basis of control, any restrictions on consolidated assets and liabilities, risk exposures arising from involvement with unconsolidated structured entities and non-controlling interest holders' involvement in the activities of consolidated entities. The Company intends to adopt this standard in its financial statements for the annual period beginning November 1, 2013. The Company is currently assessing the impact of this new standard on the Company's financial assets and financial liabilities.

The requirements relating to separate financial statements in IAS 27 are unchanged in the amended IAS 27. The other portions of IAS 27 are replaced by IFRS 10. IAS 28 *Investments in Associates and Joint Ventures* ("IAS 28") is amended to conform with changes in IFRS 10, IFRS 11 and IFRS 12.

IFRS 13 *Fair Value Measurement* ("IFRS 13") replaces existing IFRS guidance on fair value with a single standard. IFRS 13 defines fair value, provides guidance on how to determine fair value and requires disclosures about fair value measurements. IFRS 13 does not change the requirements regarding which items should be measured or disclosed at fair value. IFRS 13 is effective for annual periods beginning on or after January 1, 2013 with early application permitted. The Company intends to adopt this standard in its financial statements for the annual period beginning November 1, 2013. The Company is currently assessing the impact of this new standard on the Company's financial assets and financial liabilities.

IAS 32 *Offsetting Financial Assets and Financial Liabilities* ("IAS 32")
Amendments have been made to IAS 32 which clarify the requirements relating to the offset of financial assets and financial liabilities. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realization and settlement'. IAS 32 is effective for years beginning on or after January 1, 2014. The Company does not anticipate that the application of these amendments to IAS 32 will have a significant impact on the Company's consolidated financial statements as the Company does not have any financial assets and financial liabilities that qualify for offset.

IFRIC Interpretation 21 - *Levies* ("IFRIC 21")
In May 2013, the IASB issued IFRIC 21, which is an interpretation of IAS 37 - *Provisions, Contingent Liabilities and Contingent Assets*. IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. IFRIC 21 is effective for years beginning on or after January 1, 2014 and must be applied retrospectively. The Company is currently assessing the potential impact of this standard.

4. CAPITAL MANAGEMENT

The capital structure of the Company currently consists of share capital, warrants and equity reserve. The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition, exploration and development of mineral properties. The Company manages its capital structure in a manner that provides sufficient funding for operational activities.

The properties in which the Company currently has an interest are in the exploration and evaluation stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurances that the Company will be able to continue raising equity capital in this manner. The Company invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly rated financial instruments, such as cash and other short-term guaranteed deposits, all held with major Canadian financial institutions.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period.

5. FINANCIAL RISK FACTORS

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

a) Credit risk

The Company's credit risk is primarily attributable to cash and other receivables. The Company's cash is held with highly rated financial institutions.

Financial instruments included in HST and other receivables consist of harmonized sales tax due from the Federal Government of Canada. The company has concluded that credit risk is minimal.

b) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at July 31, 2014, the Company had a cash balance of $6,283 (October 31, 2013 - $32,723) to settle current liabilities of $565,166 (October 31, 2013 - $372,706). Of the Company's current financial liabilities, $215,608 (October 31, 2013 - $146,391) have contractual maturities of less than 30 days and are subject to normal trade terms.

5. FINANCIAL RISK FACTORS (continued)

c) Market risk

Interest rate risk

The Company does not have any interest-bearing debt. The Company invests any cash surplus to its operational needs in investment-grade short-term deposit certificates issued by highly rated Canadian banks. The Company periodically assesses the quality of its investments and is satisfied with the credit rating of the bank.

Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. Management believes the foreign exchange risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk.

Price risk

The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

There were no significant changes to credit risk, liquidity risk and market risk during the period.

d) Fair value

The carrying amounts for cash, other receivables, refundable staking deposits, trade payable and accrued liabilities, and loan payable on the statements of financial position approximate fair value due to their short-term maturity. The fair value of investments in entities listed on the TSX Venture Exchange are based on quoted market prices in active markets and are classified as a Level 1 in the fair value hierarchy.

A three tier hierarchy is used as a framework for disclosing the fair value of financial instruments based on inputs used to value the Company's financial instruments. The three levels of the fair value hierarchy are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 - Inputs that are not based on observable market data

5. FINANCIAL RISK FACTORS (continued)

e) Sensitivity analysis

The Company is exposed to foreign exchange fluctuations as a result of transactions with its subsidiary, Silver Spruce Resources Mexico S.A. de C.V. The Company does not use derivatives to mitigate its foreign currency risk.

The statement of financial position includes the following amounts expressed in Canadian dollars with respect to financial assets and liabilities for which cash flows are denominated in the Mexican pesos.

	July 31, 2014	October 31, 2013
	$	$
Mexican pesos:		
Cash	**3,735**	7,754
Accounts payable	**5,835**	7,260

A plus or minus 10% change in the value of the Canadian dollar with respect to Mexican Pesos would affect the Company's net loss by approximately $16 (October 31, 2013 - $50) based on balances denominated in Mexican Pesos on July 31, 2014.

A plus or minus 10% change in the Company's investment in marketable securities as at July 31, 2014, would affect the Company's net loss by $34 (October 31, 2013 – $34).

6. MINERAL PROPERTIES

	October 31, 2014	Additions	Refund of expenditures	Impairment and abandonments	July 31, 2014

At July 31, 2014	**41,667**	**2,748**	**8,320**	**52,735**

8. SHARE CAPITAL

The share capital is as follows:

	July 31, 2014	October 31, 2013
	$	$
Authorized:		
An unlimited number of non-voting preference shares		
An unlimited number of common shares		
Issued and outstanding:		
111,957,805 (October 31, 2013 - 111,957,805)	**27,398,740**	27,398,740

9. WARRANTS

The following is a summary of warrants activity for the periods ended July 31, 2014 and October 31, 2013:

	July 31, 2014		October 31, 2013	
	Number	**average exercise price**	Number	average exercise price
		$		$
Balance, beginning of year	**1,196,250**	**0.20**	7,809,595	0.14
Expired during the year	-	-	(6,613,345)	0.20
Balance, end of year	**1,196,250**	**0.20**	1,196,250	0.20

a) The grant date fair value of the warrants granted during the year ended October 31, 2012 were estimated using the FINCAD model for pricing warrants with American style exercise and time varying strike price. The model is based on the Cox-Ross-Rubinstein binominal tree for the underlying stock price with the following key assumptions: The price of an underlying asset is log normally distributed. The volatility of the price of an underlying asset is constant over the life of the option. For the May 18, 2012 private placement the expected dividend yield rate was 0.0%, and the expected volatility was 106.7%. The warrants can be exercised at a price of \$0.15 on or after May 18, 2012, \$0.20 on or after May 18, 2013, and \$0.25 on or after May 18, 2014. The weighted average fair value of the warrants granted in 2012 was \$0.02.

9. WARRANTS (continued)

Summary of warrants outstanding as at July 31, 2014:

Warrants	Exercise price	Fair value of warrants	Expiry date
	$	$	
1,196,250	0.20	28,596	May 18, 2015
1,196,250		28,596	

10. SHARE BASED PAYMENTS

The Board of Directors of the Company has adopted a stock option plan for the Company. Pursuant to the plan, the Board of Directors of the Company may allocate common shares to its directors, officers and certain consultants. The aggregate number of stock options to be granted under the plan should not exceed 20% of the issued and outstanding capital of the Company and the aggregate number of shares reserved for issuance to anyone person shall not exceed 5% of the issued and outstanding common shares. The options are non-transferable and non-assignable and may be granted for a term not exceeding five years. The exercise price of the options is fixed by the Board of Directors of the Company at the time of grant, subject to all applicable regulatory requirements. The vesting period for options is set by the Company at the time the options are granted.
